COM SAMEDA &

Sub: - Six monthly EC Compliance Report for Bellora Naigaon Opencast Mine, WCL, Wani Area for the period from 1st October 2023 to 31st March 2024

Respected Sir, Bellow H.

Please find enclosed herewith the Six Monthly EC Compliance Report in respect of Bellora Naigaon Deep OC mine for the period from 18 October 2023 to 31st March 2024.

Thanking you.

Yours faithfully,

Sub Area Manager
Niljai Sub Area

Copy To,

- 1. Regional Officer, MPCB Chandrapur
- 2. Area General Manager, Wani Area. WCI.
- 3. General Manager (Env/HOD) WCL, Nagpur
- 4. Area Nodal Officer (Env), Wani Area.
- 5. Office Copy

WESTERN COALFIELDS LIMITED SIX MONTHLY

EC COMPLIANCE REPORTS

FOR PERIOD OF

1st October 2023 to 31st March 2024

yearly basis.

compliance

earmarked 4 external OB deposits covering an area OB is stacked at earmarked place as per PR, & the height of OB dump is maintained 60m only.

OB details as on 31/03/2024

Sr. No.	Dump Name	Type of Soil (Black Cotton/ Hard Soil)	External/ Internal	Area (in Ha)	Volume (in Mm3)
	Dump No- 1	Hard	Internal	131.71	47.38
	Dump	Hard	External	15.07	2.95
2	No- 4 Dump	BC	External	151.67	45.39
3	No- 5	soil BC	External	10.13	1.35
5	Dip- l Dip- l	Soil Hard	External	9.59	3.2

The ultimate slope of the dump is maintained not more

Plantation of native species is also done on OB dump for slope stability. Till now 91050.00 Nos. of mixed native species of plants have been planted on embankment and Catch drains of length 3 km width 1.5 m and depth 1.5 m

have been provided around periphery of OB dumps to arrest silt & sediment flow from OB dumps etc, which is maintained properly.

Catch drains and siltation ٧ ponds of appropriate size shall be constructed to arrest silt and sediment flows from soil, OB and mineral dumps. The water so collected shall be utilized for watering the mine area, roads, green belt development etc. the drains shall be regularly desilted and maintained properly.

Garland drains (size, gradient and length) and sump capacity shall be designed keeping 50% safety margin over and above the peak sudden rainfall and maximum discharge in the area adjoining the mine site. Sump capacity shall also provide adequate retention period to allow proper setting of silt material. Dimension of the retaining wall at the toe of the dumps and OB benches within the mine to check run-off and situation shall be based on the rainfall data.

The mine water is using for watering the mine area, roads for dust suppression, and green belt development etc.

Garland drain of length 5 km width 1.5 m and depth 1.5 m is provided at mine boundary. Mine water sump of adequate capacity with retention period have been provided to with stand peak sudden rainfall & max discharge in the area adjoining the mine site.

Crushers at the CHP of adequate capacity for the expansion project shall be operated with high efficiency bag filters, water sprinkling system shall be provided to check fugitive emissions from crushing operations, conveyor system, haulage roads, transfer points etc.

The CHP is completely covered with GI sheet and provided with water sprinkling arrangement.

Fugitive dust suppression at mines is done by mobile water tanker (2 Nos. 28 KL departmental tanker, 2 Nos. 18 KL contractual tanker and 1 Nos. 12 KL hired tanker). 1 No. truck mounted mist canon is also in operation in mine.

vii Drills shall be wet operated.

Drills are provided with wet drilling arrangement.

for mineral transportation shall view black topped and properly maintained.

A3 tier green belt comprising of mix of native species shall be developed all along the major approach roads and

All the coal transportation & other infrastructure roads are concreted or black topped. Plantation has been done along coal transportation & approach roads.

Till date 158400 Nos. of plantation done in 63.36 Ha.

There is no colony under Naigaon OC mine. The
Xvi	Sewage treatment plant shall be installed in the existing colony. ETP shall also be provided for workshop and CHP waste water.	employees of Naigaon reside at Sunder nagar colony of Niljai OC mine which has 0.5 MLD STP. ETP at workshop is provided of 100 KLD capacity.
Xvi	Besides carrying out regular periodic health checkup of their workers, 10% of the workers identified from workforce engaged in active mining operation shall be subjected to health check up for occupational diseases and hearing impairment, if any through an health institution/ agency located in the region/district within period of one year and the results reported to DGMS.	Besides regular periodic health check up of the company workers 10% of the workers are checking for occupational diseases & hearing impairment if any, through health institution/agency within the region and report sent to concerned authority.
Xvi	For monitoring land use pattern and for post mining land use, a time series of land use maps based on satellite imagery (on scale of 1:5000) of zone and buffer zone form the start of the project until end of mine life shall be prepared one in 3 years (for any one particular season which is consistent in the time series), and the report submitted to MOEF and its Regional office at	Restoration/Reclamation Monitoring of all mine of WCL having less than 5 million cum. (Coal+OB) capacity is being done by Satellite and the data is available in the website of WCL. The satellite data for Bellora Naigaon OC mine for year 2023 is enclosed. The data is submitted to MoEF&CC
Xi	Bhopal. A Final Mine closure plan along with details of corpus fund should be	Mine Closure Plan is a part of Project Report/ Mining plan and a final mine closure plan was approved by the WCL Board along with opening of a corpus fund / account

the said of

submitted to the ministry of Environment & Forests of final mine closure

having account no. 08973161002799 was opened at the Oriental Bank of Commerce, Jaripataka Branch, Nagpur. The total corpus amounts available in the account as on date Rs. 622570132.23 as on 31.03.2024 (Including the principal along with the interest).

The project authorities XX shall in consultation with local administration and Pantheist of the local prepare and villages implement a plan for socio-economic welfare measures under CSR to be carried out over the balance life of the budgetary A mine. provision of Rs 5 per tonne of coal shall be for CSR earmarked for village activities Bellora, Naigaon. The budget and expenditure thereon village wise and activity wise for CSR shall be displayed on WCL

CIL's CSR policy dtd. 30-12-2015 has been framed as per companies Act 2013, as per notification issued by Ministry of Corporate Affairs, GoI on 27-02-2014 as well as DPE guideline.

As per the policy, fund for CSR should be allocated based on 2% of average net profit of the company for three immediate preceding financial years or Rs. 2.00 per tonne of coal production of previous year whichever is higher.

The company shall have a Ххі laid down well Environmental policy approved by the Board of Director. The Environment policy shall prescribe for standard operating process/procedures to bring into focus any infringement/deviation/vi the of olation environmental norms/conditions. provide for checks and balances the company should have a well laid out system of reporting on non compliances/violations of environmental norms to the board of Directors of company, and/or shareholders stakeholders at large.

website and also included as part of Annual plan.

Coal India Limited (CIL) has formulated a comprehensive Environment Policy only in March 2012, followed by a revised policy in December 2018 approved by CIL Board in its 377th Meeting held on 20th December'2018 for implementation at CIL and its subsidiaries.

This Corporate Environment Policy 2018 of CIL was subsequently discussed in the 309th Meeting of the Board of Directors of WCL held on 04.03.2019. After deliberation, WCL Board has adopted the policy in principle for implementation in WCL and the same was communicated vide Ref: WCL/BD/SECTT/BM-309/2019/267 dated 15.03.2019.

For monitoring of EC/FC norms & conditions, an online MDMS portal (Mine Data Management System) of MoC, GoI is already existing where in the environmental data namely, air quality, water quality, noise quality data are uploaded and regularly updated. In addition to that, compliance report of each condition of EC is also uploaded in the portal and the same is also updated every six months.

This management system has the access of CIL & MoC.
